

Build your skills to fly high!

NZ Certificate in Aeronautical Engineering (Level 3) **NEW**

With no prior experience needed, this is a perfect starting point for anyone passionate about aeronautical engineering.

Based on the Nelson Campus, this one-year programme offers a mix of in-class and online learning, hands-on workshops, collaborative projects, and off-campus field trips.

This balanced approach ensures you gain a well-rounded education, combining theory with practical, real-world experience and giving you the skills employers look for.
